

Lean Silver Belt – Business Optimisation Workshop

Improve your business by removing waste

Audience:	Managers, team leaders or individuals looking at improving the efficiency of an organisation through continuous improvement.
Duration:	2 Days classroom training, in-house project and assessment.
Cost:	\$1,999 ex GST.
Credits:	Certification as a Lean (Silver) Belt

Program Description

Lean methodologies are globally recognised as best practice for business improvement. Our Lean program is a hands on and practical course for people at all levels in an organisation designed to provide a proven roadmap for continuous improvement.

This program provides participants with the most common Lean concepts and tools to immediately improve the efficiency of their business. Formal classroom training provides participants with techniques and skills which they can implement in their work environment and confidently lead a continuous improvement project.

The course is delivered in four phases:

Phase 1 Pre reading to ensure all participants are at the same level

Phase 2 Two days of class room training which will provide individuals with the key tools and techniques to be able to work on Lean style projects:

- Introduction to Lean
- Waste Elimination
- Value Stream Mapping
- Standardisation & 5S
- Process Mapping
- Cause and Effect Diagram
- Storyboarding for Lean
- Kaizen Approach

Phase 3 A 2–3 month practical assignment within a workplace which will give the individuals the opportunity to implement the skills they have learnt during the training into a work environment and confidently lead a continuous improvement project.

Phase 4 A take home practical assessment evaluating all facets of the Lean journey which will provide participants with formalised certification within Lean methodologies.

Skills Developed

- Eliminate waste throughout your organisation
- Identify and target activities that erode value
- Improve and standardise procedures to maximise efficiency
- Communicate and implement sustainable changes
- Lead a successful Lean Initiative to deliver tangible results

Lean Gold Belt – Business Optimisation Workshop

Improve your business by removing waste
