

**Unleashing Clarity,
Solving Complexity:**
Guiding You Towards
Effective Solutions

Overview of Program

Designed for business leaders seeking effective resolutions to their most challenging concerns, this program is tailored for individuals and companies ready to tackle those problems creating significant performance drag so they can accelerate their journey towards success. This program offers a focused, two-week, facilitated opportunity to delve into the core issue causing your most significant challenge.

Our expert consultants working in partnership with your small, in-house team will facilitate you through KT’s landmark Problem Analysis method so that you can capture and focus in on the most relevant information and drive towards the identification of the Most Probable Cause (MPC). We’ll set you on the path towards confirming True Cause, too.

Facilitated Problem Analysis Sprint

Value Delivered By the Program:

Cost and Time Savings

Often when faced with a critical problem organizations become bogged down in attempting to recreate the problem rather than identifying root cause; time and money are wasted on efforts that yield poor results. Our facilitated Problem Analysis Sprint provides structure, focus, and a drive to results in a clear timeframe.

Resource Optimization

By providing a structure, and a clear process to follow, the right resources can be identified to participate in the facilitated problem analysis experience, Your team can show up prepared and when your team discovers information gaps you have a clear direction on who to involve and how to incorporate their subject expertise.

Increased Productivity/Output

By time-boxing the facilitation within two weeks, the pressure to produce results through process is high. Your team will have the support it needs through virtual sessions, break-out coaching, and ad hoc support all offered through private a confidential technology to ensure efficient and effective output
